# 1. Menu

- This component is the navigation bar for all the webpage section in the **Madam Boutique** website. To switch to other section, users simply need to click on a particular section. For example, figure 1 below illustrates how to switch from **Home** page to **Store** page.
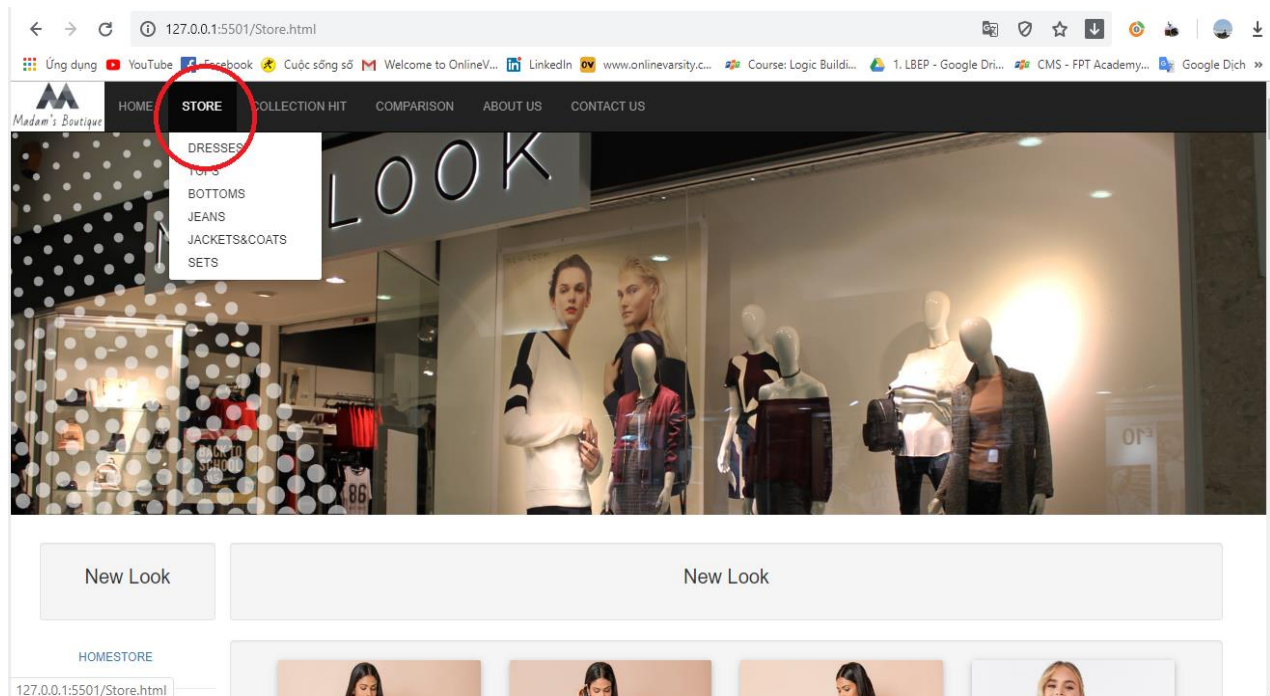

**When you select an item in the store, you will get a page containing the same type of product ( example :Dress)**
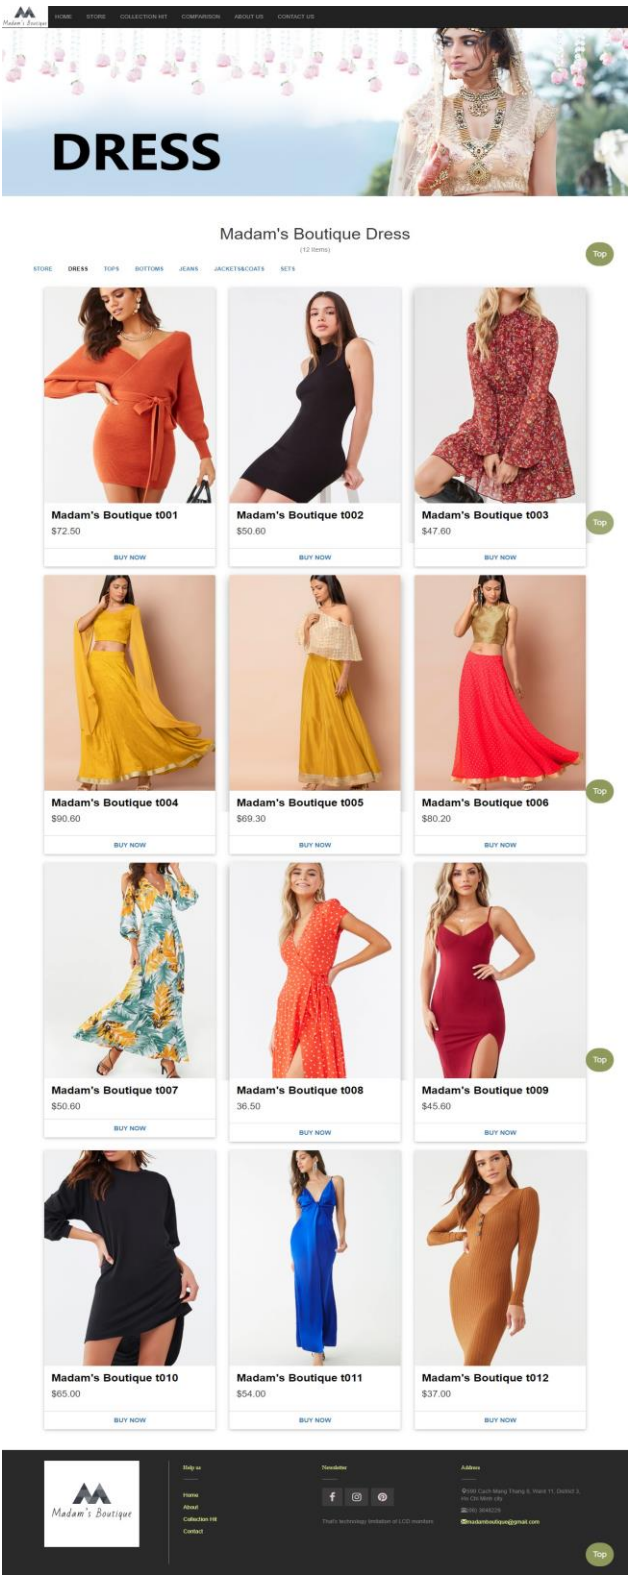

# 2.Product section

- This site allows users to find information for the product they are looking for. To get detailed information about a specific type of clothing, users need to click on the image, which will automatically open the information page for that item. For example:

# 3. Collection hit

- This page shows the Hit Collection of the store. For example:

## Chanel

For Virginie Viard's first Métiers D'Art show (and her second for the house overall) the creative director kept the show local at the Grand Palais instead of venturing out to a far flung destination. She is after-all still establishing what her Chanel is—and Chanel is Paris, always. It's also little boucle suits and that famed double C logo, two of the house's hallmarks she leaned into for the pre-collection. The set was modeled after 31 rue Cambon in Paris, Gabrielle Chanel's famed apartment as reimagined by director and former Chanel intern Sofia Coppola. "There is a sort of simplicity in going back to Chanel's ABCs," Virginie Viard explains via press release. "We don't need to do too much. I didn't want the usual long-distance traveling of the Métiers d'art collections; I wanted to stay in Paris. So, we had to think of a new way of doing things." Because, after all, Chanel est Chanel est Chanel.
